Masks

Written by Jodi Farrington
Lake Forest School District
Sometimes we need to wear face masks.
This is because of a virus called COVID-19.
We wear masks so we don’t get sick or get others sick.

You can’t get me!
It is important to stay safe.

She knows how to stay safe!
Wearing a mask may be uncomfortable. It might feel hot, itchy, or tight.
I can practice wearing it at home and at school.
The mask or face covering must cover my mouth and nose.

Good job Wonder Woman covering your nose and mouth!
With practice, I will get used to it so it won’t feel uncomfortable anymore.

Way to go! I knew you could do it!
Places we go, all require masks.
When I leave my house, I need to wear my mask.
As soon as I get on the bus, I must wear my mask.
I will keep my mask on throughout the day in school.
People look different when they wear masks. At first, I might not recognize my teachers and friends.

Don’t worry, it’s just Thor saving the day!
We can all wear masks together and still have fun!
Just make sure you stay 6 feet away from each other.
Knowing that I have kept others safe, I too will be a hero!
