WHAT WE ARE LEARNING

Our 3rd Grade students have worked so hard this year and we are all so proud of the time and effort they put into the end of year state testing in Math and Reading. As the year begins to wind down our learning will continue as we review Main Idea and Details in Reading, finish our unit on Multiplication and Fractions in Math, and learn about Economic Exchange in Social Studies. Please remind your child that the year is not over yet so they need to keep trying their best every day!

The last day of school for students will be June 11th and dismissal will be at 11:30am on this day.

HOMEWORK

Over the summer your child should continue practicing the important skills they have learned this year in Reading and Math. Set some time aside every day for your child to read quietly and reflect on what they have read. You can imbed Math into your every day fun by having them calculate how many hot dogs will be needed for a cookout or what time you will arrive at a fun destination!

NOTES FROM THE TEACHER

This has been such a fun year with all our 3rd grade students and we wish everyone a safe and happy Summer vacation! Please remind all our upcoming 4th graders to come back to Wetlands Pod next year and visit us 😊

IMPORTANT DATES

May 17th—Dress as Your Future Career day

May 27th—NO SCHOOL

May 31st—NO SCHOOL

June 11th—Last Student Day (11:30 dismissal)
