

RAPID COVID-19 ANTIGEN TESTING

FOR CHRISTINA STUDENTS PARTICIPATING IN IN-PERSON LEARNING & ACTIVITIES

FREE TESTING FOR ASYMPTOMATIC STUDENTS

The Christina School District, working with the Delaware Department of Health and Social Services – Division of Public Health (DPH), is offering free Antigen testing to all students participating in Hybrid Learning and In-Person extracurricular activities in all schools and programs in the Christina School District. There is no cost to you or your insurance.

The District will be periodically testing asymptomatic (without symptoms) students only with the Antigen Testing. The testing will be performed on a rotating basis. Each school's testing dates will be posted on the school and district websites.

TESTING CONSENT

A consent form will be needed in order for your child to participate in testing. The consent will be in place until August 31, 2021 unless you notify your child's school nurse in writing that you revoke the consent. You will receive notification when your child is tested.

THE PROCESS

The process is much easier than some of the other testing processes you may have seen. The student simply takes the cotton tipped swab and swirls this into the front of both of their nostrils. Instruction and assistance will be provided for your student.

THE RESULTS

If your child's test results are positive, you will be immediately notified to pick up your child and your child will be moved to a location/room away from other students. Your child must have an additional PCR (test for COVID-19) test done within 48 hours to confirm the results.
