

# RAPID COVID-19 ANTIGEN TESTING

FOR CHRISTINA SCHOOL DISTRICT STUDENTS

## FREE TESTING FOR ASYMPTOMATIC STUDENTS

The Christina School District in partnership with the Delaware Department of Education, Delaware Public Health, and Quidel, are offering the implementation of a rapid COVID-19 Testing Program.

Like last year, registered students and staff will participate in weekly testing to detect the presence of COVID-19. These tests, similar to a rapid strep test, provide results in fifteen minutes. The Christina School District began offering this service in January of 2021. We are excited to continue offering this mitigating strategy for the 2021-22 school year.

The Christina School District will use the following process to administer testing:

### TESTING CONSENT

Students/Families must opt in to the testing program by completing the consent for COVID-19 testing form. The consent form can be found on our website

### THE PROCESS

Students, with an approved consent, will be tested weekly while at school. Testing will be provided and administered by Quidel. Testing will be completed in a matter of minutes using a nasal swab.

### THE RESULTS

The student and family will be notified of a positive result and required next steps. Quidel will also post all test results to a secure online portal for individual/parent review.
