

THE K-5 REPORT CARD

During the 2018-2019 school year, Christina School District shifted to a standards-based grading approach in kindergarten through grade 5. The K-5 report card will provide a more accurate view of a student's progress in academic and behavioral areas. Factors like responsibility, participation, effort and attendance are reported separately, and not as an indicator of a student's academic performance.

ALIGNMENT

Fully aligns with Common Core Standards in ELA and Math, Next Generation Science Standards and Social Studies State Standards

CLEAR TARGETS

Communicates how students are performing on a set of clearly defined learning targets called standards

GRADE-SPECIFIC

Unique to the grade and standards of that grade

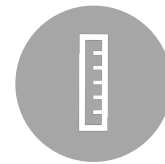

MORE OBJECTIVE

More objective evaluation according to grade-level standards

MORE ACCURATE

Separates academic progress and learner behaviors

CONSISTENT

Prioritizes the most recent, consistent level of performance
