

HELP A HIGH SCHOOL SENIOR

Experience Work-Based Learning

The Christina School District seeks to engage with local businesses and industries to provide opportunities to place high school seniors in positions that allow for real-world experiences that are complementary to their classroom education.

PARTNER WITH US

We are seeking your partnership in placing at least one or more qualified students in your organization.

You will have the opportunity to interview our qualified students, as well as, review their resume and other pertinent information. If you are unable to employ students, we would still like to partner for potential job shadowing opportunities, site visits, and classroom presentations.

ABOUT WORK-BASED LEARNING

The Federal Strengthening Career and Technical Education (CTE) for the 21st Century Act defines work-based learning as "sustained interactions with industry or community professionals in real workplace settings that foster in-depth, firsthand engagement with the tasks required in [various] career fields."

CAREER AND TECHNICAL FIELDS

Our CTE Seniors have earned at least three credits in one of the following pathways listed below:

- Agricultural Sciences & Natural Resources
- Air Force and Navy ROTC
- Business Management and Administration
- Communication & Media
- Education & Human Studies
- Health Sciences
- Hospitality and Tourism
- Science, Technology, Engineering and Mathematics

We want to give our students as many opportunities as possible to experience a connection between the classroom and industry.
