1:1 Technology Initiative Agreement

The Christina School District (CSD) has invested in a 1:1 technology initiative for students. The initiative will increase student access to technology and instruction in all learning environments, improve core skills, boost motivation and engagement, and foster the development of 21st-century skills through project development, research and communication. It is critical that our students be technology literate as they work toward becoming college and career ready. Students will use their devices in and out of the classroom to engage with their teachers in synchronous and asynchronous instruction that includes but not limited to class assignments/activities, live video conferencing, social emotional learning, projects and research, assessments, and other instructional items necessary for the current educational environment (in-person or remote).

District Responsibilities
- We will assign students a mobile device, including AC power adapter, to use during the current academic year.
- We will provide students network/internet access to academic content and resources while at school.
- We will offer mobile hotspots to families who have no or limited internet access at home to support the remote learning environment during the COVID-19 pandemic.
- We will encourage students and staff to use electronic resources to promote educational excellence through resource sharing, innovation, communication and electronic tools.
- We will provide internet-filtering capabilities in accordance with the Children's Internet Protection Act (CIPA).

Network and Internet Filtering Information
- Students may connect to their home internet, mobile hotspot, school wifi (CSD network), or other secure or public network.
- Once on the CSD network, all users will have filtered internet access just as they would on any other district owned device. When not on the CSD network, filtered internet access will continue to be in place using district and state software.
- The filtering capabilities provided by the district meet the guidelines established by the Children's Internet Protection Act (CIPA).

Student/Parent Responsibilities and Technology Initiative User Agreement
By signing this document, my child and I agree to the following:

The school provided mobile device is an important learning tool to be used for educational purposes only. In order to receive a device, the student and parent/guardian must be willing to accept the following responsibilities:

I will sign and return the Technology Initiative Agreement to the Christina School District prior to the device being issued.
I understand the device and power adapter are being provided and assigned to the student and is in good working order. I understand the equipment is, and at all times remains, the property of Christina School District and is herewith provided to the student exclusively for educational purposes for the duration of the current academic school year.

I will treat my device with care by keeping it safe, not dropping it, not letting it get wet, not leaving it in extreme weather conditions, and not using it with food or drink nearby. I will not try to repair my device.

I agree to not deface or destroy this property in any way. Inappropriate use of the machine may result in the student losing their right to use the mobile device. The equipment will be returned when requested by Christina School District, or sooner, if the student withdraws from Christina School District prior to the end of the school year.

I understand that stickers, labels, tags, or markings of any kind are NOT to be added or removed to/from the device.

At ALL times when using my mobile device, I will follow the Acceptable Use and Internet Safety Policy, all related policies adopted by the Board of Education, and abide by all local, state and federal laws, including the Christina School District Student Manual.

I will not lend my device to anyone and agree to keep all passwords and credentials assigned to me secure. I will only use my credentials to sign into my device.

I understand that district officials have the ability to monitor my use of the device and that communications, files, internet search activities and any other actions using the device are not considered to be private.

Note: CSD will not remotely operate the camera on the device. However, students can cover it when not in use to ensure others are not.

I understand that the school district has made reasonable attempts to provide a safe computing environment for students within the district's network at school. I also understand that it is impossible to guarantee students will not gain access through the internet to information and communications that they and/or parents/guardians may find inappropriate, offensive, objectionable or controversial.

I will ensure that my device is used and stored appropriately, charged each night, and brought to school each day.

I will contact my parent, teacher, technology coordinator, and principal, immediately if my device is missing, lost, stolen, or damaged.

If I do not abide by the rules of the Christina School District, my device may be taken from me and an alternate usage agreement may be created.

Damage, Loss, or Theft
Responsibility for Damage: The student is responsible for maintaining a working Chromebook at all times. The student shall use reasonable care to ensure that the Chromebook is not damaged, stolen, or lost. In the event of damage the student/parent will be billed for the cost of the damage or the replacement cost of the Chromebook. If the damage is deemed accidental, there will be a $25 charge for the cost of the first repair each school year. This does not apply to warranty repairs. If subsequent repairs are required during the school year, or if the damage is deemed intentional due to neglect, the student/parent will be charged the fees determined by the cost of the
replacement parts and labor, not to exceed $250 per repair. If the Chromebook is lost, stolen, or damaged beyond repair, the student will be responsible for a replacement cost of $250.00.

**Accidental Repair Schedule:** 1st Repair - $25, Subsequent Repairs – total cost of fees determined by the cost of the replacement parts

My signature below indicates acknowledgement and acceptance of the terms listed above regarding the Christina School District 1:1 Technology Initiative Agreement.
